

Distinguished Speaker Series

Hosted by TRADOC G-2

with

Dr. Tuomas Sandholm

for a presentation on:

Superhuman AI for Strategic (= Game - Theoretic) Reasoning for the DoD, - Beyond Machine Learning -

Tuesday
23 July 2019
1430 – 1600

Transportation Museum
Fort Eustis, VA

Dr. Tuomas Sandholm **Carnegie Mellon University**

Dr. Tuomas Sandholm, a renowned academic and successful serial entrepreneur, is the Founder, President, and CEO of Strategy Robot, Inc. He is the Angel Jordan Professor in the Computer Science Department at Carnegie Mellon University, with affiliate professor appointments in the Machine Learning Department

His algorithms run the UNOS kidney exchange, which includes 70% of the transplant centers in the US.

The team that he leads is the multi-time world champion in computer Heads-Up No-Limit Texas Hold'em poker, the main benchmark for testing algorithms for imperfect-information games. Then their AI Libratus became the first and only AI to beat top humans at that game.
