## SEARCH RECORDS

All entity records from CCR/FedReg and ORCA and exclusion records from EPLS, active or expired, were moved to SAM. You can search these records and new ones created in SAM. If you are a government user logged in with your SAM user account, you will automatically have access to FOUO information.

## ATTENTION EXTRACT AND WEB SERVICE USERS

**SAM Extracts and Web Services:** Support for the legacy-formatted extracts and web services in SAM ended on October 31st, 2014. Federal systems using SAM data must convert to the SAM-formatted extracts and web services. If you see "You do not have access to this extract" you need to submit a Data Access Request for the appropriate role by logging in with the account that needs the role. Go to "Data Access" then click on either "System Data Access Request" or "Individual Data Access Request" (depending on your user account type) and follow the prompts to submit the request. If you have any questions, select Help from the main navigation menu to access user guides, training materials, FAQs, or [contact our Service Desk](#).

#### Understanding the 2012 NAICS Codes & SBA Size Standards:

SAM uses the 2012 North American Industry Classification System (NAICS) Codes and the Small Business Administration (SBA) Table of Small Business Size Standards to help small business owners assess their small business status by industry. Visit [SBA's Size Standards page](#) for more information.

When you register in SAM to pursue federal contracts, you provide worldwide size metrics and select the NAICS Code(s) most applicable to your business in the Assertions section of your registration. You then certify to the NAICS table displaying your small business status by industry in your Representations and Certifications.

Periodically, SBA updates the size standards for certain industries or sectors. If the size standard changes, and this affects the "Yes" and "No" answer (meaning Small or Other Than Small) on your NAICS tables at 52.212-3 and 52.219-1, SAM will place an
