

AFAP ISSUE CRITERIA

- ☐ Is the issue factual or resolved/completed?
- ☐ Does the issue duplicate an active AFAP issue?
- ☐ Does the issue duplicate an AFAP issue deemed unattainable in the past 3 years?
- ☐ Can the issue be resolved at the local level?
- ☐ Does the issue address one topic and require a single functional proponent for resolution?
- ☐ Is the issue within the ability of Army Reserve, HQDA, or DoD to resolve?

Note: States rights or issues that fall under the purview of agencies such as the VA or Department of Homeland Security do not meet AFAP criteria.

AFAP issues contain three sections: a title, scope, and recommendation. Someone reading your issue should understand the problem, why it's a problem, and what will fix the problem.

Title: The issue title is a short summary of the issue. It is not a sentence. Example: "Tuition Assistance for Overseas Spouses" not "Spouses Overseas Have Limited Access to Scholarships"

Scope: The Scope is a clear and concise paragraph about the issue. The Scope identifies one problem, not several. It is three or four sentences in length. The first sentence states the problem; the middle sentences provide facts or additional information; and the last sentence says why the issue is important.

Recommendation: The recommendation tells what you want to happen – the end product that will resolve this issue. Recommendation always start with a strong action verb (e.g., Strong verbs: provide, conduct, develop, build, fund; Weak verbs: consider, seek, ensure) each recommendation must relate to the problem identified in the Scope. Issues are limited to one recommendation. Example: "Develop a tuition assistance program for overseas spouses." Not "Spouses should get financial aid in areas where they have limited scholarships or employment."

Submission Direction: Return completed Issue Solicitation Form to the Family Programs Office.
