

## TRAINING & DOCTRINE COMMAND, G-2

# ATP 7-100.3 CHINESE TACTICS—NOW PUBLISHED!

The ATP series presents the Army with an unclassified assessment of how specific threat actors would execute tactics and techniques if the U.S. were the enemy. It is designed to challenge readiness, requiring familiarity and precision to succeed against the actions of an identified adversary.

## ATP 7-100.3 CHINESE TACTICS

This ATP presents an unclassified assessment of how China would execute tactics and techniques if the U.S. were the enemy. It provides information to U.S. and partner audiences to help them to prepare to face China as a pacing challenge.

### UTILITY

Use when directed to add techniques and procedures specific to China for training from classroom to CTC. Use to inform units and organizations on Chinese tactics and techniques. Can be used with DATE World.

### WHY?

ATP 7-100.3, Chinese Tactics supports the DoD-wide shift to China and the Pacific, and is its first comprehensive open-source publication on PLA tactics since the *Handbook on the Chinese People's Liberation Army* was published by DIA in 1984. It is written based directly on PLA sources.

### SUPPORT

TRADOC G-2 offers comprehensive support to units and organizations who wish to gain better understanding of the Pacific OE, China, and regional threats. Please contact us with questions, RFIs, and RFSSs.

### LINKS

ATP 7-100.3 is available on APD, APAN, and ODIN. It is Distribution Statement A: Distribution Unlimited, making it accessible to all training audiences and our allies and partners.

## WHAT'S NEXT?

TRADOC G-2 is developing a comprehensive package on China, including an OE video, collection of reading materials, and a DL course. Conditions from China are already incorporated into OPFOR doctrine and DATE World.
